Ever since he first learned about the Earth Resonance Frequency (ERF), Dean has included its subliminal vibrations in Soundings recordings. His scientific background led him to appreciate the benefit of mixing this natural frequency under the music as a carrier wave of nature itself. The ERF also happens to coincide with the frequencies our brains emit when we are in the peaceful Alpha or Theta brainwave states. Here’s a somewhat technical overview of ERF and how it can influence our inner state of being.

Sound is the vibrational environment that affects our auditory system. The apparent range of audible sound is described as the frequencies of vibration that occur between 20-20000 cycles per second or Hertz (Hz). This extends from very low sounds such as the deep pitched growl of an avalanche, to the very high-pitched whispers of foam on the ocean.

Our physical body is affected by vibrations even when they are below the range of human hearing. One such ultra-low frequency (ULF) is called the Earth Resonance Frequency (ERF). This frequency of our beautiful planet is located fundamentally at 7.83 Hz. There are several factors at play here, and we will share our understanding of the scientific basis of resonant frequency and then explain how that ties in with our states of consciousness and how the ERF or other ultra-low frequencies can support us reaching a meditative zone.

First of all, any space, whether it is a room, a bottle, or a cathedral, has an inherent resonant frequency. If you sing a variety of tones into a room, there will be one primary tone that will sound louder in that specific room. If you blow across the top of a bottle, there will be a tone created that depends on the size and shape of the space inside the bottle. These are the resonant tones or frequencies inherent to the space. A flute is a perfect example since by pressing a key and changing the size of the chamber that air is blown across, the pitch or frequency of the note is changed.

Now let’s look at a much larger space – the atmospheric cavity that surrounds the Earth, that spherical donut of air that is between the Earth itself and the ionosphere. This vast space also has its own resonant tone or frequency which happens to be 7.83 Hz. This exact frequency was predicted mathematically by a German physicist and professor named Winfried O. Schumann in the 1950s. What he calculated by using the size of the Earth, the atmosphere, and other factors has since been corroborated via modern instruments.

The Schumann Resonances (SR) are a set of spectrum peaks in the extremely low frequency portion of the Earth’s electromagnetic field spectrum and are global electromagnetic resonances generated and excited by lightning discharges in the cavity formed by the Earth’s surface and the ionosphere. The primary of these frequencies is always around 7.83 Hz. This frequency also happens to be the wavelength that dolphins, whales, and crickets communicate on. Our nerve cells fire at close to that frequency. From time immemorial, all life systems on this planet have been bathed in this drone of nature’s own frequency.

Now let’s look at how the ERF relates to us and our meditation practice. As you may know, our brains emit ultra-low frequency sound waves that vary depending on the state of our consciousness. When we are in our busy, rational frame of mind, our brains emit Beta frequencies in the range of 14-30 Hz. This is called our Beta brainwave state, and occurs when we are active and thinking, doing computer work, driving a car, or something that requires left brain or rational thinking. We need to access this state to function in the world on a daily basis.
When we are seeking a space to meditate or heal, we want to drop down into the next state which is deeper and more relaxed, so we enter the Alpha state. This is when we are awake and alert, but also peaceful, calm, and centered. The Alpha range is around 7-14 Hz and is a very safe state to be in because one is still aware and alert to the surroundings but also open and receptive to being at peace and accessing our more intuitive faculties.

When we want to go even deeper, we drop down into the next state which is called Theta and the frequencies our brains emit at this level are around 4-7 Hz. Theta is the state of deep meditation, inner quiet, and various trance states. Deeper still is Delta at about .5-4 Hz and occurs when we are in deep sleep, or in a coma.

BrainWaves

So how can tuning into the Earth Resonance Frequency help us reach a deeper state of meditation? The easiest way to access the ERF is to spend time in nature away from man-made frequencies such as the 60-cycle hum of electronic devices and other frequencies that are found in cell phones, computers, traffic, and the many transmitters that surround us. It is difficult to experience the ERF in cities with all the modern sounds and noises, so we sometimes add this frequency under the mix of recorded music. The way this works in the recordings is through a process called ‘entrainment.’

Entrainment is simply the synchronization of an organism with an external rhythm, essentially two bodies vibrating together. Fast music will entrain us to its rhythms so that we want to dance or move. Music with slower rhythms or no apparent beat can entrain our body to relax, and even positively affect our heart rate, digestive system, and nervous system. That is entrainment on a larger, more physical level. The ERF and other ultra-low frequencies entrain at the more delicate level of our brainwaves, our state of our mind, our consciousness.

Adding the Earth’s own natural frequency to our aural ecosystem can be one more pillar of support on our meditation path. While nothing can surpass the peace that comes from simply being in nature, at least having the ERF available can help mitigate the intensity of modernity.

ABOUT THE ARTISTS: Dean & Dudley Evenson

In 1979, husband and wife team and Soundings of the Planet co-founders, Dean and Dudley Evenson, decided to blend their peaceful music of flute and harp with the sounds of nature and start their own record label. They wanted to carry the message of earth through their music into urban areas where decisions about the planet were being made. This inspiration came to them directly from their contacts with Native American elders and medicine people. They were also motivated to create a more peaceful and meditative form of music that would support yoga and massage and their evolving spiritual path.

(Taken from website: Soundings.com)
In October 2017, I was having one of those wondrous periods of creative channeling, bringing oracles to life that I’d been hoping to work on for years. While talking to my publisher about different themes I might feel drawn to, they suddenly brought up the idea of a goddess oracle deck. Before I said yes, however, I knew I had to give it some careful thought. After all, I had not been attracted to any goddess-based oracles I’d seen up to this point, wishing for one that better reflected my language and the current state of the global shift in the psychospiritual and social experience.

As I gave the idea of this new deck the consideration it deserved, it occurred to me that the mystical, the magical, the numinous quality of life was and still is the domain of the fierce and creative feminine aspect of the universe—which was once deified as the Goddess. My forehead began to tingle every day, bringing to mind old memories of the sign of the blue moon I’d paint on my face as a child while I told my mother I’d be a priestess or a nun one day. So this offer made me think—perhaps the Great Goddess wanted more from me now.

Because of the changing landscape within the dialogue regarding women’s rights, women’s issues, and the misuse of patriarchal power, I began to feel a strong calling to express this theme in my work. We all need to heal, and my intention around saying yes to this deck would support women while also holding space for an inclusivity that moved beyond the limitations of gender labels. I feel this is deeply needed at this time. We need to reweave the feminine into the masculine to find a new, collaborative paradigm. In order to serve the true essence of what this oracle could mean to the modern user at this specific time, I needed to look further into the far-ancient past. I needed to find what has been lost.

The ancient systems of divination were the domain of the first peoples of this earth and the creation Goddess they worshipped. Make no mistake: Oracles began with women. They originated as a means of understanding our relationship with the consciousness of the Goddess, our personal experience of being alive, and being part of nature. Oracles were sacred tools made to help us connect to, understand, and navigate the invisible world that influences human events. Today, oracles used for divination still serve us in the very same way.
About the Book

Internationally acclaimed oracle expert and best-selling author Colette Baron-Reid delivers a gorgeous, deluxe-packaged oracle deck to enhance interactive and meaningful conversations with the Divine Feminine aspect of the universe. Drawing upon the symbolic energy of many goddesses from ancient cultures around the world—energy that can be reflected in every individual—this oracle deck provides loving and clear guidance to those who seek it.

The depiction of the goddesses in this oracle is non-traditional in order to blur the lines of what’s expected and allow the goddesses to show their archetypal essence—which exists in everyone regardless of culture—while the oracle leaves room for an evolving story. The Great Goddess is calling you to open up and reconnect with the universe in all her forms. The Feminine aspect of the universe is rising to restore balance in the world. Will you answer the call and receive her guidance? Who could we become if we knew how to reclaim our true power?

Striking, elegant interpretations of 52 goddesses from cultures all over the world await you in Goddess Power Oracle. Elen of the Ways call you to your path . . . Artemis offers to guide your arrow . . . Cerridwyn urges you to trust in the unlimited potential of your life . . .

Because the art is based on photographs of real women, many of the eyes are illuminated to glow with the mystical qualities of that goddess and to imply the eternal light shining from within.

May the Great Goddess awaken the light within you too.

About the Artist

Jena DellaGrottaglia is a native New Yorker who now lives in Los Angeles with her husband, soul mate, and best friend, Daniel. She also has an affinity for animals, as her adopted four cats would attest to wholeheartedly. She is a self-taught artist who believes in being eclectic and unique in her styles, hoping to always evolve and create new and wondrous art. Her influences range from Michael Parkes and Gil Bruvel to the amazing Terese Nielsen and many more.

About the Author

Colette Baron-Reid is an internationally respected spiritual intuitive, psychic medium, educator, and oracle expert. Her best-selling books and oracle cards are published worldwide in 27 languages. She is the founder of Oracle School, a global online learning platform with students in 26 countries, where self-empowerment, co-creation, and ancient oracles meet in a modern contemporary way. Colette is also the creator of the energy psychology technique the Invision Process®. She spends her time between Canada and the USA with her husband and two Pomeranians.

A Special Note from Colette

My artist and I created this deck in a deeply respectful spirit, and the way we depict these goddesses is in no way intended to replace their traditional appearances. This is especially true when it comes to the goddesses who are a part of a living religion, such as the Hindu goddesses or the Indigenous goddesses—this multicultural oracle deck would not have been meaningful if these goddesses were left out. The choices in the depictions of the goddesses came from a commitment to the Great Goddess and how She expresses Herself in every woman, every person, and we wanted this deck to show each goddess as a symbolic archetype within a unified whole rather than the actual traditional goddess. We hope you love it!

Our minds, our emotions, our relationships, and our bodies are out of kilter. We know it, but we tend to ignore it until something brings us up short…to truly heal we need to return to the original recipe for wellness discovered by shamans millennia ago. Drawing on experience as a medical anthropologist—Alberto Villoldo shows you how to detoxify the brain and gut.

BECOMING SUPER-NATURAL
Dr. Joe Dispenza
ISBN: 9781401953119
$19.99 | PubDate: 03.19.19
A marriage of profound scientific information and ancient wisdom to show how people can experience a more mystical life. Readers will learn that we are literally supernatural by nature if given the proper knowledge and instruction. Learn how to apply that information so we experience a greater expression of our creative abilities.

Make Some Magic

WITCHBODY by Sabrina Scott  
ISBN: 9781578636648 | $18.95  
Witchbody is an invitation to awaken a sense of wonder to what lies beneath the surface of our experiences—the magic of all things. A plant, a tree, a coffee cup, garbage bins, you, me—they're all full of magic. Witchcraft is simply the power we all have to awaken this magic.

"Reading Sabrina Scott's beautiful graphic novel Witchbody has been a transformative experience for me. I hope that the messages of Sabrina's work, their perspectives on ecology, materiality, nature and magic, will feel relevant to everyone who reads this."

– Beth Maiden, Little Red Tarot

"Witchbody is smart, beautiful, and highly recommended."

– Spiral Nature
"Sabrina Scott’s *Witchbody* is a welcome and much needed reminder of the sheer physicality inherent in witchcraft and of the power and pleasure which that provides. Magic is in your body and in all bodies; human and non-human alike. *Witchbody* will ground your witchcraft practices and recalibrate your magical vision. It has benefit for all readers but especially for the modern witch."

— JUDIKA ILLES, author of *Encyclopedia of Witchcraft, Encyclopedia of 5000 Spells*, and other books of magic

"Sabrina Scott has created a mystical and intellectual masterpiece. *Witchbody* reclaims the poisoned, manufactured world, laying bare the purity fantasy of the natural sublime that leaves our magic unbodied, ungrounded, unreal. A powerful celebration of what we have, a call to protect what is left, and dare to situate our witch-selves in this gorgeous, imperfect world."

— MICHELLE TEA, author of *Modern Tarot*

"Reading Sabrina Scott’s beautiful graphic novel *Witchbody* has been a transformative experience for me. I hope that the messages of Sabrina’s work, their perspectives on ecology, materiality, nature and magic, will feel relevant to everyone who reads this. Put simply, if you engage in any way with the physical world (and of course, it is impossible not to), then this book is for you. It will help you to redefine your relationship to your environment and find magic in all that you touch—including yourself."

— BETH MAIDEN, founder of *Little Red Tarot*
This book is an invitation.

This book invites you to touch it, feel it, taste it. This book invites night dreams and day dreams, meditations and journeys, contemplation and conversation, wandering and wondering. This book invites you to read it.

It is a book that becomes richer when read, ripped, touched. As you read, the ink may smudge, smear. It may leave marks on your fingers; so touched, you may touch the book and leave your mark, visible, undeniable. This book will caress you, meet you where you are and ask you where you want to go. It is a different type of book: it is a talisman.

Blessed under the August full moon, this book is vibrant with pulp and paper and ink but also with spirit. You may feel one or two following you home: maybe a dead relative or companion animal or just plain good vibes from nowhere and nobody in particular. You may notice the sun anew, see the grass, leaves, office building, cubicles: changed. You may begin your morning with a cup of tea and as you sip you may find yourself wondering what it is like to be a cup.

What can that wondering mean for the environment? For education?

This book is about me but it is about you, too. You too, are entangled. I invite you to move with me on this journey. Maybe fast, maybe slow.

Write in the margins, write to me, write a letter to a friend. Bring it with you, give it away. The book may leave of its own accord. It has agency of its own, impetus that I can’t control. This book will travel where it is needed and also where it feels like going. But right now, this book is with you.

This book is an invitation to embrace your entanglement, and wonder – however fast, however slow, however long, however short – a microcosm of how different bodies walking different paths can collide together in assemblage, if only for a moment.

- Sabrina Scott

Sabrina Scott is a PhD candidate in Science and Technology at York University (Toronto, Canada) with a Master’s degree in Environmental Studies. She has been reading tarot and practicing witchcraft for 18 years. She is an illustrator, graphic novelist, academic, and professional witch, teaching workshops and reading tarot.

Aghora I: At The Left Hand of God
ISBN: 9780914732211 | $26.95
The Aghora trilogy has been embraced worldwide for its frankness in broaching subjects generally avoided and its faculty for making the "unseen" real.

Aghora II: Kundalini
ISBN: 9780914732310 | $34.95
Book 2 of the trilogy explores kundalini, the force of forces. Tantra, mantra, the sacred fire, chakras and consciousness. Written in the personable form of Vimalananda's storytelling, it enables us to truly enter the invisible realms.

Aghora III: Law of Karma
ISBN: 9780914732372 | $34.95
In this third volume of the Aghora trilogy, the Aghori Vimalananda uses the backdrop of the Bombay racetrack as a metaphor for the ultimate game: the entwinement of our lives with the cause and effect of karma.

Vāstu: Breathing Life Into Space
ISBN: 9780988916906 | $25.00
Teaches us how to enhance our lives and living spaces through understanding and arranging matter, and renders the seemingly etheric art of Vāstu tangible, with practical, grounded examples and direction.

Living with Reality
ISBN: 9780988916920 | $15.00
This volume provides a distillation of the Aghora trilogy, in the form of quotes on tantra, yoga and more, along with the vibrant illustrations of Satya Moses with a foreword by Dr. Svoboda.

Praise for Brain States

“Kenyon Shows us with numerous examples and vivid imagery how properly guided, focused intent is one of our most powerful allies in the journey of personal transformation.”

– Mark Woodhouse, Ph.D
(Associate Professor, Dept. of Philosophy; Georgia State University)

“For those exploring the frontiers of consciousness, either for personal growth or for the development of methods to help others, this book provides a valuable map and delightful insights into the journey.”

– Susan Kolb, M.D.
(Surgeon)

In this book, the founder of Acoustic Brain Research takes psychosomatics one step further, moving into the fascinating world of psychoacoustics. Through the use of hypnotic states and sound healing, Kenyon has developed methods that accelerates therapy and behavioral changes.

KUNDALINI YOGA

ENLIGHTENING TITLES FROM YOGIC REALITY INC.

DIVINE RELATIONSHIPS: Two Bodies, One Soul

Yogi Bhajan, Master of Kundalini Yoga, believed that in love and marriage a couple ideally become “two bodies and one soul.” In *Divine Relationships* you’ll discover yogic teachings for finding and merging with a spiritual partner, enhancing sexual potency and vitality, and being ‘married in love.’ The Kundalini yoga and meditation was selected to release the pain of past relationships, clear the clouds between you and your partner, and re-energize your relationship. The authors share spiritual love lessons they have found most valuable, and reveal personal insights on building intimacy. A chapter on Kundalini Yoga Basics is included for beginners.

WAVES OF HEALING: The Essence of Kundalini Yoga

Waves of Healing reveals how being true to yourself - listening to the voice of your soul - plays a crucial role in your health and well-being. Physical illness manifests from imbalance in the trinity of mind-body-soul. The degree to which you have lost touch with the voice of your soul is proportional to the malaise you manifest in your life. The practice of Kundalini Yoga creates waves of healing to revitalize you, so you can be your best self. A chapter on Kundalini Yoga basics is included.
